

July 30, 2015

To our valued clients, vendors and partners:

We are extremely pleased to announce the merger of AXIS Integrated Solutions with Net@Work, one of the most respected Sage Software Partners in North America and an award-winning end-to-end technology solutions provider. I have personally known the key players at Net@Work for some time and have long admired their reputation, commitment to success, and drive in providing extraordinary customer service. We look forward to continuing working for you while adding strength to our professional service team.

You will see very little change relative to your Sage Software support, really just a name change.

So, what does this mean for our clients?

- Increased resources ~ more staff, better response time & expanded help desk
- Increased expertise (breadth and depth of staff knowledge)
- Additional sales and customer service resources
- Overall more bandwidth to provide better customer experience
- Expanded accounting software, ERP, CRM and HRMS solutions
- New offerings including Document Management, Web Development, and eCommerce

We will continue to provide the excellent level of service and support our customers have come to expect. Our entire team is very excited about joining Net@Work and the ability to bring even more knowledge and resources to all of our clients! We look forward to being able to combine our expertise and experience with the great people at Net@Work and become part of a larger and stronger team of professional ERP consultants. We encourage you to visit the website at <http://www.netatwork.com> to learn more about our new firm.

Thank you for your continued business and we look forward to our ongoing relationship. As always, our goal is to help make you more successful and we look forward to hearing from you. Please feel free to reach out to us with any questions you may have or how Net@Work can bring you additional benefits with your ERP needs.

Sincerely,
Kelly Hummel
