

Applicant Tracking and Recruiting Software in the Cloud

Attracting and hiring top level talent has never been easier or more efficient with iRecruit.

iRecruit is an easy-to-use, powerful and flexible applicant tracking and recruiting software. iRecruit's set-up and implementation is quick and easy. As a Software as a Service (SaaS) hosted solution, there is no need for a local desktop or server installation, making iRecruit both straightforward as well as cost effective.

Key iRecruit Benefits

Immediate ROI: iRecruit pays for itself with branding, posting to major job boards, tax credit processing, centralized system.

Applicant Tracking: Track the status of each applicant. Communicate with applicants, managers and track all correspondence.

Career Center Employment Branding: Build a strong employment brand and give a great first impression to enhance the candidate experience when they visit your career center.

The Power of Social Media: Harness the power and reach of social media channels to attract passive candidates and build your talent network.

Reporting and Metrics: Track performance with key recruiting metrics such as time to hire, costs, source of hire and EEO Reporting.

Onboarding New Hires: Eliminate paperwork with iConnect Employee Onboarding feature. Create Custom forms to request information such as Background Checks, and Emergency Contacts.

Proven Integration: with Sage HRMS.

Tax Credit Screening: Save on new hires who fall into target groups, including Enterprise Zones and Veterans.

Free Monthly Training: You'll never have to pay for new user training. iRecruit offers free training to all new users.
