# Payroll Tax Updates

---

The following federal, state, and local tax changes are included in this update.

## State and Local Legislative Updates

This section lists the state and local updates available with this release. If a state or locality is not listed in this section, there are currently no tax updates or product modifications for that state or locality.

### California

Effective July 1, 2015, California employers must show the number of available sick days each employee has on their pay stub or in a document issued the same day as their paycheck. Employers must also keep record of how many hours each employee earned and used for three years. This information may be stored on documents available to employees electronically.

**Tip:** You can use SAP® Crystal Reports to make the required edits to the payroll checks.

### District of Columbia

The District of Columbia's Department of Employment Services (DOES) has released revised specs for quarterly UI reporting of wage and tax data. S record positions 147-161 for the employer account number are now left justified and blank filled. The Quarterly Wage reporting file for Q2 2015 has been updated accordingly.

### Kentucky

- A new tax code has been added for Pulaski County for employees working in Somerset so that the reduced tax rate for the county will be calculated. The new code is KY0250 - Pulaski (Som) CO Regular IT. There were no changes made to the existing code (KY0120 - Pulaski CO Regular IT). The new tax code rates are as follows:
  - For April 1, 2015 through June 30, 2015 individuals working in Somerset are to be withheld 0.9% for Pulaski County payroll occupational tax.
  - For July 1, 2015 through June 30, 2016 individuals working in Somerset are to be withheld 0.8% for Pulaski County payroll occupational tax.
  - There is a state mandated offset of 0.1% for the fiscal year ending 6/30/15 and a 0.2% offset for the fiscal year ending 6/30/16 for revenue sharing. After that the offset is no

longer applicable and employees working in Pulaski County will be withheld 1% regardless of whether or not they work in Somerset.
