

Meet Our NetSuite Team

Our NetSuite team is a highly trained, experienced group comprised of solution architects, project managers, developers, technical and business consultants.

We are fully committed as a partner to NetSuite and a partner to our clients.

Edward Catarsi
NetSuite Consulting Practice Manager

Ed Catarsi is the Consulting Manager for our NetSuite Practice. He joined Net@Work in 2017, bringing more than 25 years of HCM and ERP expertise, leadership, and senior management experience to his role with the company. Ed manages consulting engagements, direction, and strategy at Net@Work for the NetSuite professional services team. His main focus is engaging with sales to drive strong revenue growth, attracting a knowledgeable and highly motivated professional services delivery team and making customer service his top priority. Prior to joining Net@Work, Ed was a Global Consulting Practice Manager at Kronos, Inc, a Vice President of Consulting at Technology Solutions Co. and was the founder of HRM Resources, Inc, a 3-time winner of the INC. 500 fastest growing companies in the US.

Chaim Cohen
Director of Solutions Architecture

Chaim Cohen has been working in the technology field for over two decades and has been with Net@Work since 1997. Chaim's areas of concentration are in developing integrated solutions for back office accounting, project management and warehouse management, especially for enterprise software. Chaim is responsible for modeling, designing and analyzing core process flows for back-end integration as well as defining technical requirements for custom features. His primary focus has been reengineering the functionality of our landmark ERP and CRM packages to fit clients' needs. In addition to very extensive knowledge of systems architecture, Chaim is a specialist in business process management and transforming ERP and CRM projects into successful business workflow.

Valentin Domange
Business Process Review Specialist

Valentin has worked in technology consulting since 2000. Prior to working at Net@Work, he worked in the finance department of a large European IT firm in Paris, France. Val manages enterprise-level projects while also nurturing Net@Work's relationship with software vendors and partners. Val has worked on various projects including ERP implementations, CRM implementations, Warehouse Management implementations as well as e-commerce web integration and large scale Business Process Requirements projects.

Rob Lawson
Sr. Solutions Architect

Rob Lawson is a well-rounded technical professional working for Net@Work since April 2018, he is currently working as a Sr. Solution Architect for the NetSuite practice at Net@Work. Prior to joining Net@Work Rob worked for Sage for over 15 years. Rob is a Certified Consultant in Sage CRM, Sage 300, Sage 300 Project and Job Costing. Prior to joining Sage, Rob worked at a regional business partner as a project manager and consultant implementing Sage 300 and CRM for over 6 years. He has a background in Accounting and Information Systems and received a BBA in Accounting from Georgia State University.

Adam Goldschmiedt
eCommerce Specialist

Adam Goldschmiedt, Director of Pixafy, Net@Work's eCommerce agency sister company, has over 15 years of experience in the web development and ecommerce space, working with hundreds of clients across dozens of verticals and industries, with brands ranging from startups to large, well-known national and international brands. Adam is directly responsible for managing both the sales and delivery sides of Pixafy, advancing collaboration with Net@Work's practices, like NetSuite, and directly managing all of Pixafy's business operations, processes, and solution offerings, with an overarching goal of delivering best-in-class service and products. Pixafy's team of highly experienced platform engineers, UI developers, designers, marketers and system architects provides our clients with digital transformation and channel harmonization across every aspect of their ecommerce universe.

Jim Shanney
Project Manager

Jim is an inactive CPA and has been managing domestic and international ERP selections and implementations for over 30 years. He is certified in two ERP packages and has worked with most of the major packages. Jim's experience also includes expertise in many industries developed during his accounting & career and refined performing ERP, reengineering and other consulting engagements. As a project manager with Net@Work, Jim brings his accounting, ERP, and industry expertise together to ensure a successful project. Jim's NetSuite experience includes multiple international implementations, as both a consultant and project manager, as well as a number of domestic implementations. Jim is also trained in NetSuite's Multi-Book feature which supports complex international reporting due to different accounting standards and currency reporting needs.

Carlo Bergamini
Project Manager

Carlo brings a lot of experience to every project: 17 years of mid-market ERP experience, 10 years in Consulting, and 7 years in Project Management. He has a large range of business experience; Financials, Warehousing and Manufacturing, within many different industries; Rentals, Equity, Office Supplies, Food/Beverage, and Farming. Carlo's areas of expertise within Project Management pertains in Sure Step Methodology, Planning Project Resource and Budget Delivery, Risk and Issue Management Change Management, and Communication Management. Prior to becoming a Project Manager, Carlo was a Senior ERP Consultant with experience in full scale implementations, upgrades, data mapping, application pilots, and knowledge transfer.

Rick Ham
Sr. Solution Consultant

Rick Ham has been consulting on several ERP systems for over 20 years including Sage and NetSuite solutions. Rick's expertise consists of consulting practice management, consulting, project management, business process analysis, solution architecting, coding, training and support. Rick has a technical development background as well as industry experience in financial, distribution, manufacturing and professional services. Rick's knowledge and experience provides the foundation to ensure deliverables that consistently meet and exceed customer expectations.

April Holman
Sr. Solutions Consultant

April Holman has been consulting on a broad range of ERP and CRM systems for over 25 years. Software publishers include NetSuite, Acumatica, Sage, Great Plains, and Infor. Her expertise consists of consulting, project management, business process analysis, solution architecting, implementation and support. In addition to having an accounting background, April's industry experience includes financial, distribution, manufacturing, not-for-profit, construction, and professional services. Her comprehensive background is the foundation for her ability to deliver solutions that improve processes and contribute to the client's overall success.
