# Thrive as a global business

React more quickly to changing customer demands while maintaining control

With Enterprise Management you can:

- Achieve faster customer response times by running an agile, connected organization across multiple companies, business units and sites
- Maintain one system of record across globally distributed operations for accurate planning and forecasting
- Maintain local compliance with multi-currency, multi-ledger, multi-legislation and multi-language functionalities
- Streamline international transactions and invoicing, adhering to local banking formats, and consolidate foreign operations for simpler financial reporting
- Automate tax declarative processes, from translations to electronic submissions, and adhere to local requirements

# Gain faster business insight

Increase customer satisfaction and remove administrative burden with faster, more flexible and more efficient processes powered by data

With Enterprise Management you can:

- Generate insight with data across multiple machines and sources and create consistent analytical models
- Give your team personalized information with access to live dashboards customized for specific business roles to monitor performance and alert them to abnormalities in the business
- Create customizable scoreboards for individual business roles; navigate up and down the audit trail to manage risks
- Distribute consistent reports across the organization, trigger alerts and workflows based on KPIs; enable collaboration to make better decisions
- Stay compliant with local data regulations such as the General Data Protection Regulation (GDPR)

# Tailor your experience

Enable your team to work smarter and more efficiently with a modular and flexible system that will grow

With Enterprise Management you can:

- Configure your solution to support your industry-specific processes, from manufacturing and distribution to business services
- Create personalized user experiences for your team using powerful configuration capabilities
- Build a custom solution by accessing specialty applications built by Sage's vibrant partner ecosystem and develop new applications using industry-leading development tools
- Choose to run your solution in the cloud, as a Sage service, on your partner's data center or on your own infrastructure

# Intuitively manage operations

Stay competitive in the face of growing complexity using an end-to-end solution to manage your operations and people

With Enterprise Management you can:

- Streamline core processes to accelerate the management of business across procurement, manufacturing, inventory, sales, customer service and financials
- Reduce business complexity using easy-to-use business applications that are tailored to your specific business needs
- Drive continuous improvements with quality management non-conformance and non compliance capabilities allowing you to identify issues, reduce costs and improve customer experiences
- Improve cost management and gain better control of project profitability
- Quickly adapt procedures to changing regulations and compliance requirements
- Stay productive from anywhere with intuitive mobile applications allowing you to check inventory, take customer orders, approve purchases and view key performance indicators on the go

# Generate industry leading ROI

Achieve 177% ROI with a 5 month payback period<sup>1</sup>

With Enterprise Management you can:

- Reduce administrative burdens by automating key accounting and finance tasks such as processing orders, invoicing, and managing journals
- Enable faster production cycles and faster response times, while efficiently managing the supply chain
- Spend more time focusing on new business services and driving out inefficiencies
- Partner confidently with Sage, a champion of business builders for over 30 years that now serves over 3 million customers on dozens of products across 25 countries
- Operate efficiently with a global partner network and services team offering world-class support

<sup>1</sup> Forrester 2016 total economic impact analysis of Enterprise Management points to risk-adjusted benefits of \$1,722,180 over three years versus implementation and operating costs of \$620,870, equating to a net present value (NPV) of \$1,101,310 for a Sage cloud subscription. The risk-adjusted ROI was a very favorable 177%, and the payback period was a quick five months on average for Enterprise Management customers participating in the research.

“The proof is in the numbers. Empire has grown over 300% since implementing Enterprise Management. We saw immediate performance increases, including a 30% reduction in productive labor and consolidation of an entire warehouse facility footprint, and annual savings of around \$400,000.”

— Robert Turtledove  
President and CEO at Empire Candle Co  
Kansas City, KS
