

XPEDITE for Sage X3 **ACCELERATED IMPLEMENTATION** **METHODOLOGY**

UNLEASH THE POWER OF YOUR BUSINESS—IN RECORD TIME.
GO LIVE IN WEEKS, NOT MONTHS OR YEARS.

Designed to deliver rapid value, Xpedite is a streamlined implementation methodology for Sage X3 to get you up and running quickly. Xpedite is a pre-configured solution that delivers core processes, along with reduced implementation times and lower risks and costs.

BENEFITS

- Quick implementation so you are up and running in weeks, not months or years
- Best practice processes based on decades of experience from hundreds of successful projects
- Reduced complexity means reduced internal effort and reduced implementation risks
- Robust foundation so you can expand the scale and scope as your business evolves and grows
- Lower overall total cost of ownership

KEY FEATURES

- Pre-Configured Solution Base on Your Industry
- Pre-Defined Processes | Sage X3 Best Practices
- Scoping is Accelerated | Gap Analysis
- Limited Data Migration | Initial Balances
- Templated Business Forms
- Conference Room Pilot Scripts and Oversight
- Go-Live Plan and Checklist

Why Net at Work

An award-winning Sage X3 partner, the Net at Work team is far more than just solution experts and consultants. We're problem-solvers, promise-keepers and the trusted partner our clients call first for perspectives on, and solutions to, their business plans and hurdles. Our Sage X3 team solves problems across the entire enterprise and understands the big picture of how systems, software and people all need to work together. As much as the software and services we deliver, it's the relationships our team forms that allow us to partner with organizations to truly unleash the power of business.
