

Supercharge your Logistics with FreightPOP's Sage X3 Integration

Reduce costs, eliminate double data entry and errors, and seamlessly automate your freight and shipping process.

INTEGRATIONS

Streamline Your Logistics

In any economic climate, Sage X3 ERP users can benefit from FreightPOP for their shipping needs. Here's why:

- 1. Efficiency through Automation:** FreightPOP streamlines processes, enhancing accuracy and reducing costs.
- 2. Compliance and Customer Satisfaction:** Meet compliance requirements and elevate customer satisfaction with on-time, precise deliveries.
- 3. Designed for Shippers:** FreightPOP, designed by industry experts, understands your unique shipping requirements.
- 4. Seamless Integration:** Easily integrate FreightPOP with your Sage X3 ERP system for optimized logistics.
- 5. Swift Implementation:** Get quicker results, ensuring agility in a competitive landscape.
- 6. Affordable:** FreightPOP offers cost-effective pricing, making it suitable for businesses at all times.

Why FreightPOP + Sage?

- 1** Robust reporting and analytics
- 2** Supports FTL, LTL, Parcel and International Shipments
- 3** Bi-directional integration keeps both systems synchronized

EASY TO DEPLOY

One Day Integration

With a plug n' play integration to the Sage X3 Application, you can be up in running in just a couple days.

- **Save Time:** Reduce manual data entry by up to 90%.
- **Increase Efficiency:** Cut shipping processing time by 50%.
- **Lower Costs:** Achieve cost savings of up to 30% on shipping.
- **Error Reduction:** Minimize human errors in shipping and order processing.
- **Scale Seamlessly:** Support business growth with a scalable solution.
- **U.S. Based Support:** Personalized, human interaction every time.
