64 vs. 32 Bit

- Sage 100 32-bit will be retired April 2026
- After installing the 64-bit version of Sage 100, any 32-bit versions on the same system will no longer be available
- If you install the 64-bit version of Sage 100 then only systems with the 64-bit version of Windows will be able to run Sage 100

64 vs. 32 Bit

Be aware when migrating from 32-bit to 64-bit

- Sage 100 needs to be V2021 or higher
- Confirm any 3rd party enhancements are compatible with 64-bit
- Understand 32-bit versions of Sage 100 cannot be on the same system as 64-bit
- Confirm all systems operate on 64-bit Windows

What's Being Retired...

Sage 100 (Standard, Advanced, Premium)	2024 (7.30) Payroll 2.24	2023 (7.20) Payroll 2.23	2022 (7.10) Payroll 2.22
Release Date	April 18, 2024	April 27, 2023	April 18, 2022
End of Support (Retirement date is the release date of the Sage 100 20XX version stated)	Release date of 2027	Release date of 2026	Release date of 2025

Important:

- Retired versions have limited phone support or support is no longer available - i.e. Sage 100 Customer Support may decline to support, and is no longer making callback appointments or researching issues for, retired Sage 100 (formerly Sage MAS 90 or 200) versions
- Sage reserves the right to determine if and when Product Updates and Hot Fixes will be issued.

What's Being Retired...

- Sage 100: Paya Vault - August 1, 2024
- SDATA - April 2025
- Sage 100 32-bit - April 2026
