

Employee Experience

Transformational Human Resources and Payroll technology, because experience goes a long way

YOUR HR & PAYROLL TECHNOLOGY PARTNER

Our Employee Experience team provides the resources needed to maximize the strategic effectiveness of an organization in regards to their most valued resources – their workforce.

HR and Payroll Solutions for Organizations of all Size

As a leading provider of transformational Human Resources and Payroll solutions, we provide the consulting, implementation and training services you need for managing the entire employee lifecycle and maximizing your Return on Employee Investment (ROEI).

Net at Work unleashes the power of our clients' businesses through the digital enablement of Human Resources. We believe it's not only about the HCM solution you have (one size does not fit all!), but the support and advisement to drive strategic business objectives in your organization.

Net at Work at-a-glance:

The Net at Work Difference

Choosing an HR & Payroll System

With deep and diverse HR, Payroll, and Talent Engagement expertise, we pride ourselves on being a valued resource for businesses looking to make the right decisions when evaluating workforce technology. We offer system selection consulting services, business process reviews, along with webinars and selection guides that span a diverse portfolio of HR solutions.

Custom Integrations & Development

If you have processes, or existing systems that don't fit into any out-of-the-box solutions, Net at Work can help. Our team specializes in custom development of modules and applications, as well as integrations across best of breed technologies. We can help you drive efficiency and productivity by linking your existing systems for seamless interoperability.

Deployment Options

We support multiple deployment and pricing options, including on-premises solutions, cloud-based software-as-a service (SaaS) solutions, and a combination of the two with hybrid solutions. Whatever your preference, you have the flexibility to choose the option that will work best for your organization's unique environment.

Solution Extensions

We are here to help our clients use their HR and related technology to make better business decisions. This often requires extended integrated solutions, and we have partnered with the best in the industry to provide solutions including BI and reporting, Document Management, eCommerce, ERP/Accounting, Managed IT, Managed Security, and more.

Technology That Works for You

We partner with customers by looking through the lens of their business rather than the lens of the product. We are trusted business advisors of HR technology, not resellers for any one publisher. We sell and support a range of HCM platforms both cloud-based and on premises, providing our clients with the ability to determine which is the best solution for their organization.

"We are a more nimble organization now. Together with Net at Work, we've deployed technology that solves our unique workplace challenges. We're faster, more accurate, and more responsive and as a result, we have more time and resources to put into making Holiday Valley a better place to work and to visit."
